GREEN BOOM

OILY™ OIL-DEGRADING REMEDIATION

Close the loop. **Break oil down.**

Add Oily™ to the drum of used Green Boom absorbents. Naturally occurring, hydrocarbon-eating bacteria break the absorbed oil down in a few weeks.

WHY GREEN BOOM

Weeks, **Not years.** Bacteria that thrive on oil break down absorbed hydrocarbons in just a few weeks.

Zero **Waste goal.** Plastic-free absorbents plus Oily™ turn spent absorbent into material that can be treated, not just buried.

Lower **Disposal cost.** Less waste to transport, and less to pay for at the landfill or the incinerator.

Oily™-R
454 g jar

Oily™-L
1.8 kg jug

PRODUCT	CONTAINER	SIZE	TREATS UP TO
Oily™-R	Jar	454 g	9.1 kg of oily waste
Oily™-L	Jug	1.8 kg	36 kg of oily waste

Naturally occurring, non-GMO microbes on a mineral carrier · Add to a drum of used Green Boom absorbents and water · Avoid breathing dust; see SDS · Follow local regulations for oily waste

LOWER TOTAL COST

Spend less on every spill, **from first use to final disposal.**

+ Haul less

Treated material can cut the volume and weight sent out for disposal.

+ Pay lower fees

Fewer drums to the landfill or incinerator means lower disposal charges.

+ Meet waste goals

A documented path to zero waste for your sustainability reporting.

USDA CERTIFIED BIOBASED PRODUCT PRODUCT 100%

BIOBASED > 85% DIN Geprüft

FOR CERTIFIED ABSORBENTS

Use Oily™ with Green Boom absorbents, certified 100% biobased.
