

Ring the leak. Skip the plastic.

Moldable socks that wrap machinery, drains, and drip zones. Each 122 cm sock holds up to 4.5 litres of oil, with nothing made from petroleum.

WHY GREEN BOOM

High

Performance. Fast wicking pulls oil in and locks it there, so it doesn't leach back out.

Zero

Plastic. 100% biobased skin and fill. No polypropylene fibers left on the shop floor.

Less

Waste. More oil per sock means fewer socks in the drum and less weight to haul.
